

FUNDING ANNOUNCEMENT

Hoogland Lymphoma Research Pilot Projects

The University of Chicago Medicine Comprehensive Cancer Center (UCCCC) is pleased to announce a continuing funding opportunity for lymphoma-related research supported through a generous gift to Sonali Smith, MD from the Hoogland Family Foundation.

Two grants of \$50,000 each will be awarded in FY19, one in each of the following categories:

- a) Clinical (e.g., clinical trial) or population research (e.g., epidemiology; disparities; survivorship/outcomes; economics)
- b) Translational (e.g., correlative; use of biobank samples; should include basic science with VERY clear translational potential).

Projects submitted should be in preparation for the development of an application for independent peer-reviewed support.

Eligibility:

- University of Chicago faculty member
- If PI is not a Cancer Center member, he/she must have a Cancer Center member as an active collaborator

Application Process:

Applicants should indicate which grant category they are applying for and Sections A through G of the proposal cannot exceed 3 single-spaced typed pages. The proposal must follow the attached template and include the following sections:

- A. Specific aims
- B. Background and rationale
- C. Research plan
- D. Relevance to lymphoma**
- E. Description of translational components (if applying for Translational grant)
- F. Description of collaborations with UCCCC members (if PI is not a UCCCC member)
- G. Future Directions: future research and grant submissions based on this pilot project
- H. Other support for project: Indicate whether this project has been submitted elsewhere for funding, and if so where and whether funding was received.
- I. NIH PHS 398 Supporting Documents
 - a. Budget and budget justification (should be prepared according to PHS 398 budget page - attached); PI or co-investigator support is not allowed; this is an internal award – there are NO indirect costs.
 - b. Biographical Sketch (including Other Support)

Review Process:

Proposals will be reviewed based on the following criteria:

1. Scientific merit
2. Translational components (if relevant)
3. Likelihood of leading to peer-reviewed funding
4. Likelihood of advancing the overall breadth and/or depth of understanding lymphoma biology and pathogenesis

Progress Reports:

Progress reports, summarizing research to date and efforts to secure external funding, will be requested at the end of the funding period. Any publications resulting from this project must acknowledge the support of the Hoogland Family Foundation.

Deadline: Monday, June 17, 2019 – there will be NO extensions

Start Date: August 1, 2019

Instructions for uploading your proposal:

1. Go to: <http://administration.uccrc.org/>
2. Click on "Submit Projects"
3. Enter your name and password (BSDAD)
4. Click on "Submit a new project" and follow the directions
5. **Note: please combine all pieces of the application (budget, budget justification, biosketch, and proposal) into ONE PDF before you upload it.**

**UNIVERSITY OF CHICAGO COMPREHENSIVE CANCER CENTER
HOOGLAND LYMPHOMA RESEARCH PILOT PROJECTS
APPLICATION TEMPLATE**

Title:

PI:

- A. Specific Aims**

- B. Background and Rationale**

- C. Research Plan/Methods**

- D. Relevance to Lymphoma**

- E. Translational Components**

- F. Description of Collaborations**

- G. Future Directions**

(A-G limited to 3 pages)

- H. Please indicate if this project has been submitted elsewhere for support, specify where and whether funded through this mechanism:**
 - a. Internal (e.g., CTSA) _____**
 - b. External (e.g., foundation) _____**
 - c. Is this a request for bridge funding related to a grant that has ended? If so please describe circumstances**

- I. NIH PHS Supporting Documents (budget, budget justification, biosketch including other support)**
